Quality Policy

Lenalea Electronics Ltd is committed to providing a flexible and responsive contract electronics manufacturing service, supported by capable people, appropriate technology and a reliable supply chain. We aim to understand and meet our customers' requirements while maintaining consistent product quality and dependable service.

The company continues to invest in its people, equipment and manufacturing capability in order to support controlled growth, improve efficiency and maintain a high standard of workmanship. Our processes are reviewed and refined as the business develops, with the objective of improving quality, reliability and customer satisfaction.

Lenalea Electronics Ltd operates a Quality Management System certified to ISO 9001. The Quality Management System provides the framework for controlling our key processes, monitoring performance and supporting continual improvement across the business.

We establish, monitor and periodically review measurable quality objectives to support the continuing suitability and effectiveness of our Quality Management System. We are committed to continually improving our processes, products and services, and all employees are encouraged to contribute to achieving our quality objectives and maintaining the effectiveness of the Quality Management System.

This policy is communicated within the organisation and is reviewed periodically to ensure that it remains appropriate to the purpose and direction of the business.
